INDEPENDENT AUDITOR'S REPORT

To the Cache County Council Cache County, Utah Logan, Utah

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Cache County, Utah (the County), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of December 31, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Bridgerland Community Ice Arena (a component unit of North Park Interlocal Cooperative), which represent eight percent, eight percent, and seven percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units of the County. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for Bridgerland Community Ice Arena, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in

Government Auditing Standards (GAS), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 12 to the financial statements, during the year ended December 31, 2024, a change to or with the financial reporting entity resulted in a restatement of beginning fund balance of certain governmental funds opinion units. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks.

- Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information, the schedules of the proportionate share of the net pension liability, and the schedules of contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The supplementary information and accompanying notes, as listed in the table of contents, including the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information described above is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the supplementary information described above is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 27, 2025 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Management's Discussion and Analysis

The following discussion and analysis is presented as an overview of the financial performance of Cache County, Utah (the County) for the year ended December 31, 2024. This narrative responds to the requirements of Government Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. All comparisons and analyses should be read in conjunction with the details contained in the audited financial statements for this year and prior years.

Unless otherwise noted, the information and financial data included in this discussion and analysis relate to the *primary government* and do not include the County's discretely presented component units. The primary government can be generally described as providing the core services expected of local government, such as general government, public safety, maintenance of infrastructure, etc.; component units are separate legal entities that provide ancillary services.

FINANCIAL HIGHLIGHTS

- County assets and deferred outflows of resources of \$195.4 million exceeded liabilities and deferred inflows of resources of \$46.8 million, which resulted in total net position of \$148.6 million, the majority of which (43%) is considered restricted for specific purposes.
- Total assets and deferred outflows of resources of the primary government increased approximately \$14.8 million from December 31, 2023 to December 31, 2024. Total assets and deferred outflows of resources increased primarily as a result of an aggregate increase in cash and cash equivalents, investments, and restricted cash and investments of approximately \$10.5 million, an increase in net additions to capital assets, which increased by approximately \$2.6 million, and an increase in deferred outflows of resources of approximately \$1.9 million.
- Total liabilities and deferred inflows of resources increased by approximately \$3.7 million from December 31, 2023 to December 31, 2024. Total liabilities and deferred inflows of resources increased primarily as a result of an increase in long-term liabilities of approximately \$5.9 million due to the issuance of general obligation bonds, offset by significant decreases in unearned revenue.
- Of the \$148.6 million in net position that is not invested in capital assets, net of related debt, \$26.5 million is considered unrestricted and \$64.2 million is considered restricted for future capital projects, tax administration, parks and recreation, streets and public improvements, etc. The current year increase in restricted and unrestricted net position is primarily associated with the excess of revenues over expenses
- Total General Fund revenues increased \$17 million or 37.6% over the prior year, from \$45.2 million in 2023 to \$62.2 million in 2024 due in large part to increased federal grant revenue and taxes.

- Total General Fund expenditures increased \$13.6 million between 2024 and 2023 due mostly
 to increases in general government services and streets and public improvements
 expenditures.
- After net interfund transfers out of \$6.8 million, the General Fund's total fund balance decreased by \$3.6 million in 2024. Transfers out were made up of budgeted, normal operating transfers to special revenue funds, capital projects funds, and the debt service fund.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. These statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the resulting difference between the assets plus deferred outflows less liabilities plus deferred inflows being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of the County is improving or deteriorating. However, other non-financial factors should also be considered.

The *Statement of Activities* presents information showing how the County's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Both the Statement of Net Position and the Statement of Activities, which together comprise the government-wide financial statements, distinguish between activities that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, streets and public improvements, health and welfare, and culture and recreation. The County does not have any business-type activities.

Financial information for the discretely presented component units is reported separately from the financial information of the primary government. The County's *discretely presented component units* include the Logan-Cache Airport Authority, the North Park Interlocal

Cooperative, which includes the Bridgerland Community Ice Arena as its own component unit, and the Bear River Health Department.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Cache County, like all other state and local governments, uses fund accounting to demonstrate compliance with finance-related legal requirements. There are three broad classifications of fund types: governmental, proprietary, and fiduciary. All of the funds of the County can be classified as either a governmental fund or a fiduciary fund.

Governmental funds

Most of the County's basic services are accounted for in governmental funds and are essentially the same functions reported as governmental activities in the government-wide statements. Governmental funds use the modified accrual basis of accounting, which measures the flow of current financial resources that can be converted to cash and the balances that are left at the end of the year that are available for future spending. This short-term view of the County's financial position helps determine whether the County has sufficient resources to cover expenditures for its basic services in the near future.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The County's fiduciary funds are custodial funds. These funds are custodial in nature and do not involve measuring results of operations. Accordingly, a statement of fiduciary net position and a statement of changes in fiduciary net position is presented. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the programs of the County.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is necessary to more fully understand the financial statements. Many of the notes contain a more complete definition of accounting terms and descriptions of the County's accounting policies. The notes also provide additional detail on deposits and investments, changes to capital assets, fund liabilities, long-term liabilities and obligations, retirement plans, and contingency and compliance-related issues.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

As previously noted, net position serves as a useful indicator of the County's financial condition. Total primary government assets and deferred outflows exceeded total primary government liabilities and deferred inflows by approximately \$148.6 million, an increase of approximately \$11.1 million from the prior year. The table below summarizes the County's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position as of December 31, 2024 and 2023, respectively:

SUMMARY SCHEDULE OF NET POSITION

		Governmental Activities					
	_	2024	2023	% Change			
Current assets	\$	114,039,511	103,328,654	10.4%			
Capital and other assets		71,620,534	69,059,289	3.7%			
Non-current assets			361,858	-100%			
Total assets	_	185,660,045	172,749,801	7.5%			
Deferred outflows of resources	_	9,719,804	7,794,655	24.7%			
Current liabilities		21,339,262	23,540,284	-9.4%			
Non-current liabilities		25,259,621	19,394,304	30.2%			
Total liabilities	_	46,598,883	42,934,588	8.5%			
Deferred inflows of resources	_	219,458	178,335	23.1%			
Net investment in capital assets		57,827,104	54,982,655	5.2%			
Restricted		64,218,957	51,098,010	25.7%			
Unrestricted	_	26,515,447	31,350,868	-15.4%			
Total net position	\$	148,561,508	137,431,533	8.1%			

\$57.8 million or 39 percent of the County's net position reflect its investment in capital assets (e.g., land, construction in process, buildings and improvements, etc.) less any related, outstanding debt used to acquire the assets. The County uses these assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional \$64.2 million, or 43.2

percent, represents the restricted amount of the County's net position. These assets are restricted because of various contracts and agreements with outside entities, or laws and regulations, which dictate how these resources may be used. The remaining balance of \$26.5 million, or 17.8 percent of net position, may be used to meet the general, ongoing financial obligations of the County.

Change in Net Position

As discussed previously, activities can commonly be divided into either governmental or business-type activities. However, none of the operations of the County meet the definition of business-type activities. Therefore, the entire increase in net position of \$11.1 million is attributable to governmental activities.

Sales tax revenue, representing 32.5 percent of all revenue, is the County's most significant revenue source. In 2024, sales tax revenue increased over the prior year by \$849,395, or 2.7 percent, and totaled \$32 million. Property tax revenue, also a significant source of revenue for the County, accounts for 25.4 percent of all revenue. In 2024, it grew by \$924,321, or 3.9 percent, and totaled \$24.9 million.

In total, revenues for the County increased \$11.8 million, or 13.6 percent, from the prior year. The primary reasons for the increase are due to increases in both operating grants and contributions and other general revenues.

Increases in operating grants and contributions were due to increases in general fund grant awards and mental health grants awarded in the current year. Other general revenues increased by approximately \$6.9 million. This increase is due to increases of approximately \$1.8 million, \$2.9 million, \$850,000, and \$1 million in taxes, the County's use of ARPA funds, increases in interest and investment income, and the receipt of opioid settlement amounts, respectively.

Charges for services increased by approximately \$920,000 or 6.9% and capital grants and contributions remained about the same when compared to the prior year.

Taxes collected by the County create the largest portion of revenues for the County totaling \$56.9 million, or 57.9 percent of all revenues. Charges for services, totaling \$14.4 million or 14.6 percent of all revenues, also played a key role in financing the County's operational and capital needs. Operating grants and contributions were also a significant portion of total revenues at \$15.4 million or 15.7 percent of all revenues.

Total expenses increased for the County by approximately \$7.8 million, or 9.8 percent, from the prior year. The activity with the largest increase was general government, experiencing an increase of approximately \$3.8 million or 17.9 percent. The primary reasons for the total increase in County expenses were related to an increase in the use of ARPA grant funds for grant-

approved projects of approximately \$2.9 million and an increase of pension expense of approximately \$1.1 million.

Public safety services generate the most significant portion of the County's expenses amounting to \$29.7 million, or 34 percent of total expenses. The costliest programs within the County's public safety services are the Sheriff Patrol, Sheriff administration, and the operation of the County jail, with program costs of \$7.2 million, \$5.8 million, and \$8.8 million, respectively. Combined, these three programs account for 24.9 percent of the County's total expenses.

The table below summarizes the County's change in net position for the years ended December 31, 2024 and 2023, respectively:

SUMMARY SCHEDULE OF CHANGES IN NET POSITION

	_	Governmental Activities					
	_	2024	2023	% Change

Change in net position		11,129,975	7,129,380	56.1%			
Net position - beginning		137,431,533	130,302,153	5.5%			
Net position - ending	\$_	148,561,508	137,431,533	8.1%			

The following table shows to what extent the County's governmental activities relied on program-related revenues to cover program costs. In 2024, these revenues covered \$29.8 million, or 34.2 percent, of total expenses through charges for services, grants and contributions. Taxes and other general revenues covered the remaining 65.8 percent of the County's expenses.

Total capital assets, net	\$	71,620,534	69,059,289	3.7%				

The investment in capital assets, net of accumulated depreciation and amortization, of the County for its governmental activities totaled \$71.6 million at the end of the year. This

investment in capital assets includes land, construction in process, buildings and improvements, equipment, right to use assets, and infrastructure. The total net amount increased over the prior year by \$2.6 million, or 3.7 percent, related primarily to increases in equipment, improvements, and construction in process additions. Total capital purchases were approximately \$7.1 million. These increases were partially offset by current depreciation and amortization of approximately \$4.5 million.

Long-Term Liabilities

CACHE COUNTY'S LONG-TERM LIABILITIES

		Governmental Activities						
	_	2024	2023	% Change				
General obligation bonds, net	\$	5,936,534	-	0.0%				
Sales tax revenue bonds, net		12,322,000	13,056,000	-5.6%				
Direct borrowings		824,917	1,420,810	-41.9%				
Subscription liabilities		646,513	292,298	121.2%				
Compensated absences		3,402,912	3,221,982	5.6%				
Total long-term liabilities	\$	23,132,876	17,991,090	28.6%				

Bonded debt outstanding at the end of the year, consisting of general obligation bonds and sales tax revenue bonds, had a balance of \$18.3 million compared to \$13.1 million at the prior year end. There are three bonds outstanding at the end of 2024. The 2024 series general obligation open space bonds, issued in the amount of \$5,625,000, were issued in 2024 to help finance the purchase of open space in the County. The 2017 series sales tax revenue bonds, issued in the amount of \$3,200,000, were issued in 2017 to help finance the Cache County Event Center. The 2019 series sales tax revenue bonds, issued in the amount of \$12,500,000, were issued in 2019 to help finance the new road facility. Direct borrowings at the end of the year totaled \$824,917 compared to \$1.4 million at the prior year end. In addition to the bonds and direct borrowings, the County's long-term obligations include an accrual for compensated absences in the amount of \$3.4 million and subscription liabilities in the amount of \$646,513.

FUND FINANCIAL ANALYSIS

As noted earlier, a fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required by law to exist. The County uses fund accounting to ensure and demonstrate compliance with the Uniform Fiscal Procedures Act (Utah Code Title 17 Chapter 36). Other funds are established internally to maintain control over a particular activity, such as capital projects.

Governmental Funds

The focus of the governmental funds of the County is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the financing requirements of the County. Unassigned fund balance may serve as a useful measure of the County's net resources available for discretionary use as it represents the portion of fund balance which has not yet been limited, by external or internal authority, for any particular purpose.

As of December 31, 2024, the combined fund balance of the governmental funds of the County was \$96.4 million, an increase of \$12.8 million, or 15.3 percent, in comparison with the prior year. Of that fund balance, \$25.1 million, or 26 percent, was unassigned and was available for appropriation by the County at its discretion. The remainder of the fund balance was either restricted or assigned and was available for spending subject to specific constraints, or it was in nonspendable form.

The general fund is the principal operating fund of the County. As of December 31, 2024, the unassigned fund balance of the general fund was \$25.1 million. This amount represents 42.5 percent of the total expenditures of the general fund, and is 132.8 percent of the total revenues from property taxes for the current year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The final adopted revenue budget of the general fund increased by \$12.5 million over the original budget. The most significant increase in budgeted revenues resulted from a change in grant revenue related to the ARPA grant. The increase for the grant was \$11.7 million, or 93.6 percent of the total revenue budget increase.

Budgeted expenditures increased by \$8.7 million over the original budget. Some of the most notable increases were related to a \$1.3 million increase in sheriff administration, a \$1.2 million increase in road projects, and a \$2.3 million increase in culture and recreation related expenditures.

See below for a summary schedule of revenues, expenditures, and changes in fund balance for the general fund with budget to actual comparisons.

CACHE COUNTY, UTAH RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION December 31, 2024

Total fund balances of governmental funds		\$	96,382,319
Amounts reported for governmental activities in the Statement of Net Position are different because:			
The net pension asset, net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions are not reported in the funds.			
Net pension asset Net pension liability Deferred outflow of resources - pensions Deferred inflow of resources - pensions	295,388 (6,380,103) 9,719,804 (219,458)		3,415,631
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.			
Capital assets not being depreciated \$ Capital assets, net of accumulated depreciation Subscription assets, net of accumulated amortization	5,730,532 65,080,497 809,505		71,620,534
Because the focus of governmental funds is on short-term financing, some revenues will not be available to pay for current-period expenditures and are therefore recorded as deferred inflows of resources in the funds.			
Unavailable revenues - property taxes			275,900
Long-term liabilities, as well as accrued interest, are not due and payable in the current period and are therefore not reported in the funds. In addition, governmental funds report the effect of premiums, discounts, and refundings and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.			
Long-term liabilities, due within one year Long-term liabilities, due in more than one year Premium on general obligation bonds	(4,253,358) (18,367,984) (511,534)	_	(23,132,876)

CACHE COUNTY, UTAH

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND

CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS

TO THE STATEMENT OF ACTIVITIES

Year Ended December 31, 2024

Net change in fund balances - governmental funds

\$ 12,768,722

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlay as expenditures. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. This is the amount by which capital outlay exceeded depreciation and amortization expense in the current period.

Capital outlay	\$	6,471,707
Depreciation expense		(4,330,444)
Subscription outlay		674,524
Amortization expense	_	(166,722)

2,649,065

In the Statement of Activities, only the gain or loss on the sale of assets is reported, whereas in governmental funds, the proceeds from the sales increase financial resources. Assets differ from changes in fund balance by the book value of assets.

(87,820)

Revenues in the Statement of Activities that do not provide current financial resources are recorded as deferred inflows of resources and not reported as revenues in governmental funds. Changes in the amount deferred can result in an increase or decrease in revenues compared to the amount reported in the Statement of Activities.

8,000

The net effect of transactions involving the net pension liability, deferred inflows of resources and deferred outflows of resources related to pensions, and pension expense is to increase net position.

Change in deferred outflows of resources related to pensions	\$ 1,925,148
Change in deferred inflows of resources related to pensions	(41,123)
Change in net pension asset	(66,470)
Change in net pension liability	 (883,762)

933,793

Bond and other debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond and other debt principal is an expenditure in the governmental funds, but repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

Payments of principal on long-term liabilities	\$ 1,745,201
Amortization of bond premium	44,183
Proceeds from issuance of bonds	(5,625,000)
Bond premium	(555,717)
Proceeds from issuance of subscription liabilities	(569,524)
Change in compensated absences liability	(180,928)

(5,141,785)

Change in net position of governmental activities

Note 1 – Summary of Significant Accounting Policies

The financial statements of Cache County, Utah (the County) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies established in GAAP and used by the County are discussed below.

Financial Reporting Entity

The County operates under a County Council/County Executive form of government. The powers and duties of the government are divided between an elected seven-member County Council and an elected County Executive. The County Council exercises legislative and policy making powers and is composed of seven members elected to four-year terms from different geographical districts in the County on a population basis. The County Executive exercises administrative powers and fiscal control of the County and may exercise a veto upon legislative actions of the County Council which in turn may be overridden by the affirmative vote of five council members. The Executive is elected to a four-year term in a County-wide election.

The accompanying financial statements present the County and its component units, entities for which the County is considered to be financially accountable. As required by GAAP, the County evaluates whether separate legal entities are controlled by or dependent on the County. The evaluation of control or dependence is based on several factors including the appointment of the respective governing board, ability of the County to impose its will on the separate legal entity, and whether a financial benefit or burden relationship exists.

Blended component units, although legally separate entities, are in substance part of the County's operations, and data from those units is combined with data of the primary government. Discretely presented component units, conversely, are reported in a separate column in the financial statements to emphasize that they are legally separate from the County. Each of the County's blended component units and discretely presented component units has a December 31 fiscal year-end.

Blended Component Units

Cache County Municipal Building Authority (MBA) - The MBA is a nonprofit corporation established to administer the sale of bonds and related construction projects of the County. The Governing Board of the MBA is comprised of the County Council. Currently, the MBA is inactive.

Note 1 – Summary of Significant Accounting Policies (continued)

Cache County Special Service District #1 (SSD) – SSD is organized under Utah laws as a separate public corporation to provide garbage collection services to the citizens of the County. The County Council has appointed itself as the Board of Trustees for the District. SSD collects fees from citizens in the unincorporated areas of the County and has contracted with the City of Logan to provide garbage collection services for citizens of the County. Beginning in December 2019, the SSD pays Logan City for garbage collection services and then bill residents those fees. SSD's operations are immaterial and therefore are accounted for in the Municipal Services Fund, a special revenue fund which is reported as a nonmajor governmental fund in the financial statements.

Cache County Fire Protection District (FPD) – FPD is organized as a separate public corporation under Utah law to provide fire protection to the citizens residing in the County. The County Council appoints the Board of Directors for FPD and has appointed two council members and the County Executive to the board. Distributions are made to local governments to provide fire protection services in their communities. The County also purchases and provides firefighting equipment for FPD. The revenues and expenses of FPD are immaterial and are reported in the Municipal Services Fund.

Cache County Community Foundation (CCCF) – The CCCF is a nonprofit corporation established to receive contributions to benefit certain community projects. The officers of CCCF are members of the County Council, the County Finance Director, and the County Executive. CCCF is reported as a nonmajor governmental fund.

Cache County Roads Special Service District (RSSD) – RSSD has been organized as a separate corporate body under Utah law. Directors of the board are appointed by the County Council. The Board only consists of County employees and so is completely controlled by the County; therefore, it is presented as a blended component unit. RSSD receives mineral lease revenues from the State of Utah which are dedicated for the improvement of roads within the district. RSSD is reported as a nonmajor governmental fund.

Discretely Presented Component Units

Logan-Cache Airport Authority (the Airport Authority) – The Airport Authority has been organized as a separate corporate body under Utah law to facilitate the construction and operation of a public airport. The Board of Directors is appointed equally by the County Council and the Municipal Council of the City of Logan. The Airport Authority does not issue separate financial statements.

Note 1 – Summary of Significant Accounting Policies (continued)

North Park Interlocal Cooperative (NPIC) – NPIC was organized to facilitate the construction and operation of a recreational ice arena facility and to finance the costs. The cooperative members are the County, the City of Logan, the City of North Logan, and the City of Hyde Park. NPIC is a separate legal entity created in accordance with Utah law. The County appoints three board members and each city appoints two board members. NPIC could be included in the financial statements of another member; however, the County has elected to include NPIC as a component unit. NPIC does not issue separate financial statements. NPIC includes the financial statements of Bridgerland Community Ice Arena, Inc. (BCIA), which operates as a nonprofit organization for the purpose of raising money for the construction, maintenance, and operation of the ice arena owned by NPIC. BCIA's primary sources of funding are user fees and donations, including an allocation of Restaurant Tax from the County. BCIA's fiscal year ends June 30, of each year. BCIA issues separate financial statements, which can be obtained at 2825 North 200 East, North Logan, Utah, 84341.

Bear River Health Department (BRHD) – BRHD was organized to provide public health services, as allowed by state law, to residents of Cache County, Box Elder County, and Rich County. BRHD is a separate legal entity created in accordance with Utah law and it issues separate financial statements which can be obtained at 655 East 1300 North, Logan, Utah, 84321.

The Airport Authority and NPIC have their books and records maintained by the County.

Interlocal Agreement

The County has fiduciary responsibilities for the following interlocal agreement and the activities are accounted for in the Visitor's Bureau nonmajor special revenue fund:

Cache Valley Visitors Bureau (the Visitors Bureau) – The Visitors Bureau is operated under an agreement between the County and Rich County to promote tourism to the common region.

Basic Financial Statements

The County's basic financial statements include both government-wide financial statements (reporting the County's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. Governmental activities are usually financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The County currently has no services that are classified as business-type activities. Therefore, all of the County's services, including the County's general administration, community development, health and human services, infrastructure, justice, parks and recreation, and public safety functions, are classified as governmental activities.

Note 1 – Summary of Significant Accounting Policies (continued)

Government-Wide Financial Statements

In the government-wide Statement of Net Position, the governmental activities columns (a) are presented on a consolidated basis, and (b) are reported on a full accrual, economic resources basis, which recognizes all long-term assets as well as long-term liabilities and obligations. The County's net position is reported in three parts: net investment in capital assets; restricted net position; and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the County's functions (general, parks and recreation, public safety, etc.). The functions are also supported by general government revenues (property taxes, sales and use taxes, certain intergovernmental revenues, etc.) The Statement of Activities reduces gross expenses by related program revenues, operating grants and contributions, and capital grants and contributions.

Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The net costs (by function) are normally covered by general revenue (property or sales taxes, intergovernmental revenues, interest income, etc.).

These government-wide statements focus more on the sustainability of the County as an entity and the change in the County's net position resulting from the current year's activities.

Fund Financial Statements

The County's accounting system is organized on a fund basis. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the government establishes for accountability purposes in accordance with statutes, laws, regulations, restrictions, or specific purposes.

Separate financial statements are provided for governmental funds. The emphasis of fund financial statements is on major individual funds, as defined by GASB Statement No. 34, with each displayed as a separate column. All remaining governmental funds are aggregated and reported as non-major funds in their respective fund financial statements. The following are fund types used by the County:

Note 1 – Summary of Significant Accounting Policies (continued)

Governmental Funds

The focus of the governmental funds' measurement (in the fund financial statements) is on determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than on net income. The following is a description of the governmental funds of the County:

- The **General Fund** is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.
- **Special Revenue Funds** are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes.
- Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.
- **Debt Service Funds** are used to account for the accumulation of financial resources for the payment of interest and principal on the general long-term debt of the government.

The County's major governmental funds consist of the General Fund (see description above), and the following special revenue funds:

- The **Mental Health Fund** is a special revenue fund used to report the expenditures of federal and state provided funding for mental health services in the Mental Health Authority jurisdiction, comprising the County, Box Elder County, and Rich County.
- The **CCCOG Fund** is a special revenue fund used to report expenditures related to road projects awarded throughout the County. Funding is provided by a special sales tax restricted to road projects.

Nonmajor Funds

The County's nonmajor governmental funds include other special revenue funds, the capital projects fund, and the debt service fund.

The County's nonmajor special revenue funds account for specific revenue sources that are restricted or committed to expenditures for specified purposes. Examples of restricted, committed, or assigned revenue sources include certain taxes, federal and state grants, and user fees.

Note 1 – Summary of Significant Accounting Policies (continued)

The County's capital projects fund accounts for the acquisition or construction of capital facilities or other capital assets.

The County's debt service fund accounts for resources used for the payment of principal and interest on long-term debt.

Fiduciary Funds

The County's fiduciary funds are used to account for assets held by the County in a trustee capacity or as an agent for other individuals or organizations. The fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The County has two custodial funds. Custodial funds are used to account for assets held by the County as an agent for other governmental units, other organizations, or individuals. These assets are primarily made up of tax collections. The County accounts for these funds in accordance with GASB Statement No. 84 "Fiduciary Activities" (GASB 84).

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transaction or events for recognition in the financial statements. The following provides a summary of the measurement focus and basis of accounting used by the County.

Economic Resources Measurement Focus and Accrual Basis of Accounting

The governmental activities in the government-wide financial statements, the fiduciary funds financial statements, and the discretely presented component unit financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Note 1 – Summary of Significant Accounting Policies (continued)

Current Financial Resources Measurement Focus and Modified Accrual Basis of Accounting

The governmental funds financial statements are reporting using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days (the availability period) of the end of the current fiscal period. An exception to this policy is expenditure-drive grant revenues, which generally are considered to be available if the eligible expenditures have been made. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. However, debt service and compensated absences expenditures are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governments funds. Issuance of long-term debt and acquisitions under lease and subscription-based IT arrangements are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, motor vehicle taxes, other taxes, and interest income associated with the current fiscal period that are susceptible to accrual, and received in the availability period (within 60 days of year-end), are recognized as revenues of the fiscal period they are intended to finance. All taxes and internally dedicated resources are reported as general revenues. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met. Program revenues, which include charges to customers and contributions for operational or capital requirements, are recorded as revenue when earned and the amount is received within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered measurable and available only when cash is received by the government.

Component Unit Financial Statements

The combining component unit financial statements are presented in order to provide information on each of the major component units included in the component units column of the government-wide financial statements. The component unit financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The information is presented to be consistent with the government-wide financial statements. The fiscal years of the component units are the same as the primary government.

Note 1 – Summary of Significant Accounting Policies (continued)

Financial Statement Amounts

Cash and Cash Equivalents and Investments

Cash and cash equivalents represent petty cash or demand deposits or other liquid investments that are kept in accounts separate from the investment pool of the County. The County considers all investments with an original maturity of 3 months or less to be cash equivalents.

Investments

Investments are reported at fair value. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

Equity in Investment Pool

Cash and investments in all funds except the Treasurer's Tax Custodial Fund, certain restricted bond funds, and certain discretely presented component units, is pooled into common accounts in order to maximize investment opportunities. Each fund whose monies are deposited in the investment pool cash accounts has equity therein. An individual fund's equity in the investment pool is available upon demand and is considered to be a cash equivalent when preparing these financial statements. Negative balances incurred in the investment pool at the end of the year are treated as temporary interfund payables of the deficit fund and as temporary interfund receivables in other funds with positive equity. Investments of the pool are stated at fair value.

Accounts Receivable

Accounts receivable consist of revenues earned as of year-end but received after year-end. All accounts tax receivable balances are reported net of any allowance for uncollectible amounts. Allowances for uncollectible accounts are based upon historical trends and current data regarding the condition of specific debtors as of the date of issuance of the financial statements. At December 31, 2024, the County has estimated that \$115,000 of its trade receivables resulting from ambulance services were uncollectable. BRHD has estimated that \$200,103 of its accounts receivable were uncollectable. The uncollectable receivables result primarily from services for substance abuse counseling and treatment.

Due from Other Governments

Due from other governments consists of amounts due to the County at year-end but remitted after year-end. The balance consists primarily of sales tax and other taxes due from the State of Utah, and reimbursements for grant expenditures due from the State of Utah, the federal government, or other agencies.

Note 1 – Summary of Significant Accounting Policies (continued)

Property Taxes

Property taxes attach as an enforceable lien on property on January 31 of each year. Taxes are levied on property owners in July and are payable by November 30. The County bills and collects property taxes for all taxing entities within the County through the Treasurer's Tax Custodial Fund. Collections are periodically distributed to the taxing entities, with final settlement due March 31 of the subsequent year. At the fund level, the County records a receivable and deferred inflow of resources for delinquent taxes, but no allowance for doubtful accounts is made as uncollected taxes are 30 deemed to be substantially collectible or recoverable through foreclosure.

Inventory

Inventory is valued at the lower of cost or market, using the first-in, first-out method. Inventory in BRHD consists of immunization serum and is valued based on information provided by the donor agency (the State of Utah) or the cost to purchase the serum.

Restricted Assets

Resources set aside for the repayment of the County's long-term liabilities and unspent bond proceeds are classified as restricted assets on the balance sheet when their use is limited by applicable covenants.

Prepaids and Other Assets

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Capital Assets

Capital assets include land, construction in process, buildings, equipment and infrastructure such as roads, bridges, and similar items. Capital assets are reported in the government-wide financial statements and the proprietary fund financial statements. The County defines capital assets as those assets with an initial individual cost of more than \$5,000 and an estimated useful life of more than one year. All capital assets are valued at cost or estimated cost if actual cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset life is not capitalized.

Note 1 – Summary of Significant Accounting Policies (continued)

Capital assets of the County are depreciated using the straight-line method over the following estimated lives:

Asset Category	<u>Years</u>
Buildings and improvements	15 to 40
Machinery and equipment	3 to 15
Infrastructure	30 to 60
Right-to-use assets – subscription assets	2 to 10

Subscription-Based Information Technology Arrangements

The County has entered into several noncancellable subscription-based information technology arrangements (SBITAs) which convey control of a third party's IT software to the County over a period of time. The County recognizes a subscription liability and an intangible right-to-use subscription asset (subscription asset) in the financial statements with an initial, individual value of \$50,000 or more and a subscription term of more than one year, including expected extensions.

At the commencement of a SBITA, the County initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of payments made. The subscription asset is initially measured as the sum of (1) the initial subscription liability amount, (2) payments made to the SBITA vendor before commencement of the subscription term, and (3) capitalizable implementation costs, less any incentives received from the SBITA vendor at or before the commencement of the subscription term. Subsequently, the subscription asset is amortized on a straight-line basis over the subscription term.

Key estimates and judgements related to SBITAs include how the County determines (1) the discount rate it uses to discount the expected SBITA payments to present value, (2) SBITA term, and (3) SBITA payments.

- The County uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the SBITA vendor is not provided, the County generally uses its estimated incremental borrowing rate as the discount rate for SBITAs.
- The SBITA term includes the noncancellable period of the SBITA.
- SBITA payments included in the measurement of the subscription liability are composed
 of fixed payments and any other payments to the SBITA vendor associated with the
 SBITA that are reasonably certain of being required based on an assessment of all
 relevant factors.

Note 1 – Summary of Significant Accounting Policies (continued)

The County monitors changes in circumstances that would require a remeasurement of its SBITAs and will remeasure the subscription asset and subscription liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Deferred Outflows and Inflows of Resources

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. Items qualifying for reporting in this category are related to pensions in the government-wide financial statements.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The following items qualify for reporting in this category.

- Unavailable revenue related to delinquent property taxes is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.
- Pension related items are reported in the government-wide financial statements.

Pension Related Assets, Liabilities and Deferred Outflows and Inflows of Resources

For purposes of measuring the net pension asset and liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) and additions to/deductions from URS's fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Unearned Revenues

In the government-wide financial statements and the governmental fund financial statements, unearned revenue is recognized when cash or other assets are received or recognized prior to completion of the earnings process. The unearned revenues are related to grant proceeds received in advance of qualifying expenditures/expenses.

Note 1 – Summary of Significant Accounting Policies (continued)

Long-term Liabilities

In the government-wide financial statements, long-term debt and obligations are reported as liabilities in the statement of net position. Bond premiums and discounts, and similar items, when material, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Debt issuance costs, except any portion related to prepaid insurance costs, are recognized as an expense in the period incurred. Prepaid insurance costs are recorded as an asset and recognized as an expense in a systematic and rational manner over the duration of the related debt.

In the governmental fund financial statements, bond premiums and discounts, as well as bond issuance costs, are recognized during the period incurred. The face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures. Debt principal and interest payments are reported as expenditures in the period the payments are due.

Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused leave benefits dependent upon hours worked and years of service. An estimated liability for accumulated leave is reported in the government-wide financial statements and the expense is allocated by function based on where the employee is assigned.

Interfund Balances and Transactions

During the course of operations, transactions sometimes occur between individual funds that may result in amounts owed between funds. Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Transfers are used to report flows of cash (or other assets) between funds without equivalent flows of assets in return or a requirement for repayment. In the government-wide statement of activities, transfers between governmental funds have been eliminated. In the fund financial statements, transfers are reported as other financing sources or uses.

Note 1 – Summary of Significant Accounting Policies (continued)

Net Position

For the government-wide financial statements, the difference between assets and deferred outflows or resources less liabilities and deferred inflows of resources is classified as net position and is comprised of three components:

- Net investment in capital assets Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction or improvement of these assets.
- Restricted net position Consists of net position with constraints placed on their use, whether by 1) external groups such as creditors, grantors, or laws and regulations of other governments; or 2) law through constitutional provisions or enabling legislation.
- Unrestricted net position All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Fund Balance

In governmental fund types, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called fund balance. Fund balance is further classified based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows.

- Nonspendable consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The County has classified prepaids as nonspendable.
- Restricted consists of amounts for which constraints have been placed on the use of resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed consists of amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the County Council. These amounts cannot be used for any other purpose unless the County Council removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Note 1 – Summary of Significant Accounting Policies (continued)

- Assigned consists of amounts that are constrained by the County's intent to be used for
 a specific purpose, but are neither restricted nor committed. This intent can be expressed
 by the County Council; no other body or official has this authority delegated to them.
 This classification also includes the remaining positive fund balance for all governmental
 funds except for the General Fund.
- *Unassigned* consists of the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by the offsetting of assigned fund balance amounts.

Net position flow assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund balance flow assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

Note 2 – Deposits and Investments

Governmental activities:

Deposits and investments consist of the following:

Financial Statement Description		Deposits	Investments	Total
Cash, cash equivalents, and investments:				
Demand deposits	\$	31,475,443	-	31,475,443
PTIF		-	49,488,610	49,488,610
Certificates of deposit		-	8,660,101	8,660,101
Corporate bonds		-	6,903,485	6,903,485
Government securities			7,490,483	7,490,483
Total cash, cash equivalents, and investments:	_	31,475,443	72,542,679	104,018,122
Total governmental activities	\$	31,475,443	72,542,679	104,018,122

Fiduciary funds:

Deposits and investments consist of the following:

Financial Statement Description		Deposits	Investments	Total
Cash, cash equivalents, and investments:				
Demand deposits	\$	25,317,141	-	25,317,141
Public Treasurer's Investment Pool	_	-	183,546	183,546
Total cash, cash equivalents, and investments:	\$_	25,317,141	183,546	25,500,687

Deposits – Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the County's deposits may not be returned. The County does not have a formal policy relating to custodial credit risk. As of December 31, 2024, \$61,261,105 of the County's bank balances of \$61,764,741 was uninsured and uncollateralized.

Note 2 – Deposits and Investments (continued)

Investments

The State of Utah Money Management Council has the responsibility to advise the State Treasurer about investment policies, promote measures and rules that will assist in strengthening the banking and credit structure of the State and review the rules adopted by the State of Utah Money Management Act that relate to the deposit and investment of public funds.

The County follows the requirements of the Utah Money Management Act (Utah Code, Title 51, Chapter 7) (the Money Management Act) in handling its depository and investment transactions. The Money Management Act requires the depositing of County funds in a qualified depository. The Money Management Act defines a qualified depository as any financial institution whose deposits are insured by an agency of the Federal Government and which has been certified by the State Commissioner of Financial Institutions as meeting the requirements of the Money Management Act and adhering to the rules of the Utah Money Management Council.

The Money Management Act defines the types of securities authorized as appropriate investments for the County's funds and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities.

Statutes authorize the County to invest in negotiable and non-negotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as "first tier" by two nationally recognized statistical rating organizations; bankers' acceptances; obligations of the United States Treasury including bills, notes, and bonds; obligations, other than mortgage derivative products, issued by U.S. government sponsored enterprises (U.S. Agencies) such as the Federal Home Loan Bank System, Federal Home Loan Mortgage Corporation (Freddie Mac), and Federal National Mortgage Association (Fannie Mae); bonds, notes, and other evidence of indebtedness of political subdivisions of the State; fixed rate corporate obligations and variable rate securities rated "A" or higher, or the equivalent of "A" or higher, by two nationally recognized statistical rating organizations; shares or certificates in a money market mutual fund as defined in the Money Management Act; and the Utah State Public Treasurers' Investment Fund (PTIF).

The Utah State Treasurer's Office operates the PTIF. The PTIF is available for investment of funds administered by any Utah public treasurer. No separate report as an external investment pool has been issued for the PTIF.

Note 2 – Deposits and Investments (continued)

The PTIF is not registered with the SEC as an investment company and is not rated. The PTIF is authorized and regulated by the Utah Money Management Act. The Money Management Act establishes the State Money Management Council, which oversees the activities of the State Treasurer and the PTIF. The Money Management Act lists the investments that are authorized which are high-grade securities and, therefore, minimizes credit risk except in the most unusual and unforeseen circumstances. Deposits in the PTIF are neither insured nor otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments.

The PTIF operates and reports monthly statements to participants on an amortized cost basis. The income, gains, and losses, net of administration fees, of the PTIF are allocated to participants monthly on the ratio of the participant's share to the total funds in the PTIF based on the participant's average daily balance. This method differs from the fair value method used to value investments in these financial statements because the amortized cost method is not designed to distribute to participants all unrealized gains and losses in the fair values of the pool's investments. The PTIF may maintain an interest reserve to stabilize the monthly apportionment of interests.

The PTIF allocates income and issues statements on a monthly basis. Twice a year, on June 30 and December 31, which are the accounting periods for public entities, the investments are valued at fair value, and participants are informed of the fair value valuation factor that enables them to adjust their statements balance to fair value. The fair value of the PTIF investment pool is approximately equal to the value of the pool shares.

Note 2 – Deposits and Investments (continued)

At December 31, 2024, the County had investments in various US government securities, certificates of deposit, corporate bonds, and the PTIF as follow:

					Investment Matu	rities (in years)	
			Credit				More
Investment Type		Fair Value	Rating	Less than 1	1 to 5	6 to 10	than 10
Governmental activities:							
Government securities:							
FHLB	\$	4,790,496	A2 - Aaa	991,720	3,798,776	-	-

Fair Value

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Note 2 – Deposits and Investments (continued)

The County's governmental activities have the following recurring fair value measurements as of December 31, 2024:

- The fair value of government securities, certificates of deposit, and corporate bonds of \$23,054,069 is determined by an independent pricing service using recently executed transactions, market price quotations, and pricing models that factor in, where applicable, interest rates, bond spreads, and volatility (Level 2 inputs).
- The fair value of the County's investments in the PTIF of \$49,488,610 is valued at the County's position in the PTIF multiplied by the published fair value factor (Level 2 inputs).

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County's policy for managing its exposure to fair value loss is to comply with the Money Management Act. Section 51-7-11 of the Money Management Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. The Money Management Act further limits the remaining term to maturity on all investments in commercial paper, banker's acceptances, fixed rate negotiable deposits and fixed rate corporate obligations to 270 days - 15 months or less. The Money Management Act further limits the remaining term to maturity on all investments in obligations of the United States Treasury; obligations issued by U.S. government sponsored enterprises; and bonds, notes, and other evidence of indebtedness of political subdivisions of the State to 5 years. In addition, variable rate negotiable deposits and variable rate securities may not have a remaining term to final maturity exceeding 3 years.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The County's policy for reducing exposure to credit risk is to comply with the Money Management Act as previously discussed.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The County's policy for reducing exposure to credit risk is to comply with the Rules of the Money Management Council. Rule 17 of the Money Management Council limits investments in a single issuer of commercial paper and corporate obligations to 5 – 10 percent depending upon the total dollar amount held in the portfolio.

Note 2 – Deposits and Investments (continued)

Most of the County's investments at December 31, 2024, were with the PTIF and therefore, are not categorized as to concentration of credit risk. The largest investment in corporate notes, issued by Canadian Imperial Bank of Commerce, is \$502,230, or less than 1%, which falls within the acceptable percentage range for a single issuer.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County does not have a formal policy relating to custodial credit risk.

At December 31, 2024, most of the County's investments were in the PTIF and therefore, not categorized as to custodial credit risk. The corporate notes do have custodial credit risk exposure. The entire \$6,903,485 is held by the counterparty's trust department or agent in the County's name. These investments are not covered by depository insurance and are not collateralized.

Component units:

The component units' deposits and investments consist of the following:

Financial Statement Description		Deposits	Investments	Total
Cash, cash equivalents, and investments:				
Demand deposits	\$	9,667,504	-	9,667,504
Fixed income	_		1,719,263	1,719,263
Total cash, cash equivalents, and investments:	\$	9,667,504	1,719,263	11,386,767

Deposits – Custodial Credit Risk

Custodial credit risk is the risk that, in the event of bank failure, the deposits of the component units may not be returned. The Component units do not have formal policies relating to custodial credit risk. As of December 31, 2024, \$374,148 of the component unit's bank balances of \$9,667,504 were uninsured and uncollateralized.

Investments

All component units of the County adhere to the Utah Money Management Act as described previously.

Note 2 – Deposits and Investments (continued)

Fair Value

Component units categorize fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The component units have the following recurring fair value measurements as of December 31, 2024:

• The fair value of investments held by BCIA, all of which have maturity dates of greater than three months and consist of fixed income securities, is \$1,719,263. Fair value of these investments is determined by an independent pricing service using recently executed transactions, market price quotations, and pricing models that factor in, where applicable, interest rates, bond spreads, and volatility (Level 2 inputs).

Note 3 – Interfund Receivables, Payables, and Transfers

At December 31, 2024, there were interfund balances of the investment pool between the general fund, special revenues funds, and the debt service fund. These balances are considered a short-term advance from the County's cash and investment pool which are expected to be repaid before the end of the next calendar year. At December 31, 2024, interfund balances are as follows:

Purpose		Amount	Receivable Fund	Payable Fund
Short-term advance Short-term advance	\$	76,936 5,294	General Fund General Fund	CCCF Fund CDRA Fund
Short-term advance Short-term advance		122,748 205,732	General Fund General Fund	RSSD Fund Debt Service Fund
	\$_	410,710		

Note 3 – Interfund Receivables, Payables, and Transfers (continued)

During the year ended December 31, 2024, the County made the following interfund transfers:

Purpose		Amount	Transfer in	Transfer out
Capital projects	\$	5,333,545	Non-Major Funds	General Fund
Debt service	\$	1,903,806	Non-Major Funds	General Fund

Note 5 – Long-Term Liabilities (continued)

Sales Tax Revenue Bonds

Series 2017 Sales Tax Revenue Bonds

Original issue of \$3,200,000, bearing interest at 2.51%, with principal payments due in annual installments commencing December 15, 2018. Interest payments are due June 15 and December 15 of each year, commencing December 15. 2017. The bonds were issued to finance all or a portion of the construction costs of the Cache County Event Center. Sales and use and excise taxes of the County have been pledged to pay the debt service on these bonds.

Series 2019 Sales Tax Revenue Bonds

Original issue of \$12,500,000, bearing interest at 2.50% with principal and interest payments due in annual installments beginning October 1, 2021. The bonds were issued to finance all or a portion of the construction costs of the Cache County Road and Weed Department facility. Sales and use and excise taxes of the County have been pledged to pay the debt service on these bonds.

The following summarizes the County's special revenue bonds debt service requirements as of December 31, 2024:

	Principal	Interest	Total
\$	752,000	308,235	1,060,235
	772,000	289,414	1,061,414

Note 5 – Long-Term Liabilities (continued)

General Obligation Bonds

Series 2024 General Obligation Open Space Bonds

Original issue of \$5,625,000 with principal payments due in annual installments commencing December 15, 2024, interest beginning at 5%, then varies between 4% and 5% throughout the life of the bonds. Interest payments are due June 15 and December 15 of each year, commencing June 15, 2024. The general obligation bonds were issued to provide funds for the acquisition of open space in the County. General obligation bonds are direct obligations and pledge the full faith and credit of the County.

The following summarizes the County's general obligation bonds debt service requirements as of December 31, 2024:

Year ending December 31,	Principal		Interest	Total
2025	\$	185,000	237,150	422,150
2026		190,000	227,900	417,900

2030-2034		1,295,000	811,250	2,106,250
2035-2039		1,595,000	502,400	2,097,400
2040-2043		1,530,000	156,000	1,686,000
	_			
	\$	5,425,000	2,559,400	7,984,400

Direct Borrowings

The County has three notes payable for the purchase of patrol vehicles with an original principal balance of \$693,400, \$740,091, and \$598,768, respectively. Debt payments are due annually on August 31 in the amount of \$146,997, \$164,277, \$104,731, respectively, until August 31, 2025, August 31, 2026, and August 31, 2027, respectively, with an applicable interest rate of 3%, 5.5%, and 7%, respectively.

Each of these notes contains a provision that in an event of default, outstanding amounts become immediately due if the County is unable to make payment.

Note 5 – Long-Term Liabilities (continued)

The following summarizes the County's direct borrowing debt service requirements as of December 31, 2024:

Year ended December 31,		Principal	Interest	Total
2025	\$	401,719	46,035	447,754
2026		274,920	25,837	300,757
2027		148,278	8,929	157,207
Total	\$_	824,917	80,801	905,718

SBITAs

The County has entered into three SBITAs with remaining subscription terms ranging from 2 to 5 years. As of December 31, 2024, the value of the subscription liability was \$646,513. The County is required to make aggregate annual principal and interest payments ranging from \$40,000 to \$132,075. The incremental borrowing rates used to determine the subscription liability range from 7% to 8%. The right-to-use assets associated with these subscription liabilities have estimated useful lives ranging between 3 and 5 years. As of December 31, 2024, the value of the right-to-use assets was \$1,075,497 and had accumulated amortization of \$265,992.

During the year ended December 31, 2024, the County made principal and interest subscription payments of \$215,309 and \$20,460, respectively.

As of December 31, 2024, there are no commitments under SBITAs before individual commencement dates.

During the year ended December 31, 2024, there were no additional variable payments or other payments associated with these subscriptions.

Note 5 – Long-Term Liabilities (continued)

The future principal and interest subscription payments as of December 31, 2024 were as follows:

Year ended December 31,		Principal	Interest	Total
2027	Φ.	202 (20	40.600	0.50
2025	\$	203,639	49,630	253,269
2026		154,364	34,405	188,769
2027		166,218	22,551	188,769
2028	_	122,292	9,783	132,075
Total	\$_	646,513	116,369	762,882

Lines of Credit

As of December 31, 2024, the County has no unused lines of credit.

Component units:

Long-term liability activity is as follows:

	_	Balance 1/1/24	Additions	Reductions	Balance 12/31/24	Due Within One Year
Subscription liabilities Compensated absences	\$	1,608,000	233,294 260,000 *	(43,402)	189,892 1,868,000	33,000 554,000
Total long-term liabilities	\$_	1,608,000	493,294	(43,402)	2,057,892	587,000

^{*}The change in the compensated absences liability is presented as a net change

Note 5 – Long-Term Liabilities (continued)

SBITAs

BRHD has entered into two SBITAs with remaining subscription terms ranging from 2 to 8.5 years. As of December 31, 2024, the value of the subscription liability was \$189,892. BRHD is required to make aggregate annual principal and interest payments ranging from \$18,385 to \$43,402. The incremental borrowing rates used to determine the subscription liability range from 5.38% to 5.42%. The right-to-use assets associated with these subscriptions have estimated useful lives ranging between 3 and 5 years. As of December 31, 2024, the value of the right-to-use assets was \$233,294 and had accumulated amortization of \$43,402.

During the year ended December 31, 2024, BRHD made principal and interest subscription payments of \$43,402 and \$0, respectively.

As of December 31, 2024, there are no commitments under SBITAs before individual commencement dates.

During the year ended December 31, 2024, there were no additional variable payments or other payments associated with these subscriptions.

The future principal and interest subscription payments as of December 31, 2024, are as follows:

Year ended December 31,	Principal		Interest	Total	
2025	\$	33,000	10,402	43,402	
2026		35,646	8,291	43,937	
2027		12,551	6,384	18,935	
2028		14,349	5,722	20,071	
2029		15,709	4,964	20,673	
Thereafter	_	78,637	10,772	89,409	
Total	\$_	189,892	46,535	236,427	

Lines of Credit

As of December 31, 2024, the County's component units have no unused lines of credit.

Note 6 – Retirement Plans

General Information about the Pension Plan

Plan Description

Eligible plan participants are provided with pension through the Utah Retirement Systems (URS) (the Systems). The Systems are comprised of the following pension trust funds:

- Public Employees Noncontributory Retirement System (Noncontributory System) is a multiple-employer, cost sharing, retirement system.
- Public Safety Retirement System (Public Safety System) is a mixed agent and cost-sharing, multiple-employer public employee retirement system.
- Firefighters Retirement System (Firefighters System) is a multiple-employer, cost sharing, retirement system.
- Tier 2 Public Employees Contributory Retirement System (Tier 2 Public Employees System) is a multiple-employer cost sharing public employee retirement system.
- Tier 2 Public Safety and Firefighter Contributory Retirement System (Tier 2 Public Safety and Firefighters System) is a multiple-employer, cost sharing, public employee retirement system.

The Tier 2 Public Employees System became effective July 1, 2011. All eligible employees beginning on or after July 1, 2011, who have no previous service credit with any of the Utah Retirement Systems, are members of the Tier 2 Retirement System.

The Utah Retirement Systems (Systems) are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Utah State Retirement Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 of the Utah Code grants the authority to establish and amend the benefit terms.

URS issues a publicly available financial report that can be obtained by writing Utah Retirement Systems, 560 East 200 South, Salt Lake City, Utah 84102 or visiting the website: www.urs.org/general/publications.

Note 6 – Retirement Plans (continued)

Benefits Provided

URS provides retirement, disability, and death benefits. Retirement benefits are as follows:

System	Final Average Salary	Years of Service Required and/or Age Eligible for Benefit	Benefit Percent per of Service	COLA**
Noncontributory System	Highest 3 years	30 years, any age 25 years, any age* 20 years, age 60* 10 years, age 62* 4 years, age 65	2.0% per year all years	Up to 4%
Public Safety System	Highest 3 years	20 years, any age 10 years, age 60 4 years, age 65	2.5% per year up to 20 years; 2.0% per year over 20 years	Up to 2.5% or 4% depending upon

^{*} Actuarial reductions are applied.

^{**}All post-retirement cost-of-living adjustments are non-compounding and are based on the original benefit except for Judges, which is a compounding benefit. The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.

Note 6 – Retirement Plans (continued)

Contribution Rate Summary

As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the Utah State Retirement Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable), is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. Contribution rates as of December 31, 2024 are as follows:

			Employer
	Employee	Employer	401(k)
Noncontributory System			
15 - Tier 1 - DB System	-	16.97%	-
111 - Tier 2 - DB Hybrid System	0.70%	15.19%	-
211 - Tier 2 - 401(k) Option	0.00%	5.19%	10.00%
Public Safety System			
43 - Tier 1 - DB System	-	33.54%	-
122 - Tier 2 - DB Hybrid System	4.73%	25.33%	-
222 - Tier 2 - 401(k) Option	-	11.33%	14.00%
Firefighters Retirement System			
31 - Tier 1 - DB System	15.05%	1.61%	-
132 - Tier 2 - DB Hybrid System	4.73%	14.08%	-
232 - Tier 2 - 401(k) Option	-	0.08%	14.00%

Tier 2 rates include a statutory required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans.

Note 6 – Retirement Plans (continued)

For fiscal year ended December 31, 2024, the employer and employee contributions to the Systems were as follows:

Governmental Activities:

	Employer	Employee
	Contributions	Contributions
Noncontributory System \$	753,896	-
Public Safety System	1,281,941	-
Firefighters Retirement System	11,895	68,590
Tier 2 Public Employee System	1,038,093	24,099
Tier 2 Public Safety and Firefighter	1,349,452	203,316
Tier 2 DC Public Employees Plan	147,337	-
Tier 2 DC Public Safety and Firefighter Plan	119,485	
\$	4,702,099	296,005
Component Units:		
	Employer	Employee
	Contributions	Contributions
Noncontributory System \$	*	-
Tier 2 Public Employee System	362,088	7,906
Tier 2 DC Only System	57,470	39
\$	1,022,235	7,945

Contributions reported are the URS Board approved required contributions by System. Contributions in the Tier 2 Systems are used to finance the unfunded liabilities in the Tier 1 Systems.

Note 6 – Retirement Plans (continued)

Pension Assets, Liabilities, Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Relating to Pensions

Governmental Activities:

At December 31, 2024, the County reported for the primary government a net pension asset of \$295,388 and net pension liability of \$6,380,103.

		Measuremen	nt Date: Decem	ber 31, 2023		
		Net	Net		Proportionate

Firefighters Retirement System		295,388	-	1.2586064%	1.3933482%	-0.1347418%
Tier 2 Public Employees System		-	438,608	0.2253456%	0.2298861%	-0.0045405%
Tier 2 Public Safety and Firefighter		-	444,923	1.1811309%	1.2590722%	-0.0779413%
Total net pension asset / liability	\$_	295,388	6,380,103			

Component Units:

At December 31, 2024, the County reported for component units a net pension asset of \$0 and a net pension liability of \$1,146,858, of which \$20,368 is related to the Airport Authority and \$1,126,490 is related to BRHD.

, ,		Measurement Date: December 31, 2023				
		Net	Net		Proportionate	
		Pension	Pension	Proportionate	Share	
		Asset	Liability	Share	Dec. 31, 2022	Change
Noncontributory System	\$	-	978,438	0.4130386%	0.4495900%	-0.0365514%
Tier 2 Public Employees System		-	168,420	0.0865298%	0.1309064%	-0.0443766%
	_	,		•		
Total net pension asset / liability	\$_		1,146,858			

Note 6 – Retirement Plans (continued)

The net pension asset and liability were measured as of December 31, 2023, and the total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2023, and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year.

Governmental Activities:

For the year ended December 31, 2024, the County recognized for the primary government pension expense of \$3,757,602.

At December 31, 2024, the County reported for the primary government deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

		Deferred	Deferred
		Outflows of	Inflows of
	_	Resources	Resources
Differences between expected and actual experience	\$	2,266,774	37,555
Changes in assumptions		1,386,529	9,476
Net difference between projected and actual			
earnings on pension plan investments		1,192,406	-
Changes in proportion and differences between			
contributions and proportionate share of contributions		176,369	172,427
Contributions subsequent to the measurement date	_	4,697,726	
Total	\$	9,719,804	219,458

\$4,697,726 reported as deferred outflows of resources related to pension results from contributions made by the County prior to its fiscal year end, but subsequent to the measurement date of December 31, 2023. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year.

Note 6 – Retirement Plans (continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension, will be recognized in pension expenses as follows:

		Net Deferred Outflows		
Year ended		(Inflows) of		
December 31,		Resources		
2024	\$	1,349,030		
2025		867,333		
2026		2,334,833		
2027		(380,265)		
2028		87,047		
Thereafter		544,642		
	•			
	\$	4,802,620		

Component Units:

For the year ended December 31, 2024, the County recognized for the Airport Authority and BRHD component units pension expense of \$8,583 and \$931,419, respectively.

Note 6 – Retirement Plans (continued)

At December 31, 2024, the County reported for the Airport Authority and BRHD component units deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

		Deferred Outflows of	Deferred Inflows of	
	_	Resources	Resources	
Differences between expected and actual experience	\$	739,057	2,758	
Changes in assumptions		390,011	133	
Net difference between projected and actual				
earnings on pension plan investments		337,198	-	
Changes in proportion and differences between				
contributions and proportionate share of contributions		43,099	9,573	
Contributions subsequent to the measurement date	_	1,015,798		
Total	\$_	2,525,163	12,464	

\$4,373 and \$1,011,425 are reported as deferred outflows of resources related to pension results from contributions made by the Airport Authority and BRHD, respectively, prior to their fiscal year end, but subsequent to the measurement date of December 31, 2023. These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year.

Note 6 – Retirement Plans (continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net Deferred Outflows		
Year ended	(Inflows) of		
December 31,	Resources		
2024	\$ 450,452		
2025	429,619		
2026	638,312		
2027	(119,891)		
2028	18,037		
Thereafter	80,372		
	\$ 1,496,901		

Actuarial Assumptions

The total pension liability in the December 31, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

- Inflation: 2.50%
- Salary Increases: 3.5 9.5%, average, including inflation
- Investment Rate of Return: 6.85%, net of pension plan investment expense, including inflation

Mortality rates were adopted from an actuarial experience study dated January 1, 2023. The retired mortality tables are developed using URS retiree experience and are based upon gender, occupation, and age as appropriate with projected improvement using the ultimate rates from the MP-2020 improvement scale using a base year of 2020. The mortality assumption for active members is the PUB-2010 Employees Mortality Table for public employees, teachers, and public safety members, respectively.

The actuarial assumptions used in the January 1, 2023 valuation were based on the results of an actuarial experience study for the period ending December 31, 2022.

Note 6 – Retirement Plans (continued)

This long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class and is applied consistently to each defined benefit pension plan. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Expected Return Arithmetic Basis				
	Real return	Long-Term expected		
Target asset	arithmetic	portfolio real		
allocation	basis	rate of return		
35.00%	6.87%	2.40%		
20.00%	1.54%	0.31%		
18.00%	5.43%	0.98%		
12.00%	9.80%	1.18%		
15.00%	3.86%	0.58%		
0.00%	0.24%	0.00%		
100%		5.45%		
		2.50%		
		7.95%		
	Target asset allocation 35.00% 20.00% 18.00% 12.00% 15.00% 0.00%	Target asset allocation Real return arithmetic basis 35.00% 6.87% 20.00% 1.54% 18.00% 5.43% 12.00% 9.80% 15.00% 3.86% 0.00% 0.24%		

The 6.85% assumed investment rate of return is comprised of an inflation rate of 2.50% and a real return of 4.35% that is net of investment expense.

Discount Rate:

The discount rate used to measure the total pension liability was 6.85%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate, and the contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the URS Board. Based on those assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current, active, and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments, to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate.

Note 6 – Retirement Plans (continued)

Sensitivity of the proportionate share of the net pension asset and liability to changes in the discount rate:

The following presents the proportionate share of the net pension liability calculated using the discount rate of 6.85 percent, as well as what the proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (5.85 percent) or 1 percentage point higher (7.85 percent) than the current rate:

Governmental Activities:

		1%	Discount	1%
		Decrease	Rate	Increase
		(5.85%)	(6.85%)	(7.85%)
Noncontributory System	\$	7,371,898	1,420,419	(3,563,541)

Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's fiduciary net position is available in the separate issued URS financial report.

Note 6 – Retirement Plans (continued)

Defined Contribution Savings Plans

Governmental Activities:

The Defined Contribution Savings Plans are administered by the Utah Retirement System Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be used as a primary retirement plan. These plans are voluntary tax-advantage retirement savings programs authorized under sections 401(1), 457(b), and 408 of the Internal Revenue Code. Detailed information regarding plan provision is available in the separately issued URS financial report.

The County participates in the following Defined Contribution Savings Plans with Utah Retirement Systems:

- 401(k) Plan
- 457(b) Plan
- Roth IRA Plan
- Traditional IRA Plan

Employee and employer contributions to the Utah Retirement Defined Contribution Savings Plans for fiscal year ended December 31, 2024, were as follows:

	2024	2023	2022
401(K) Plan			_
Employer Contributions	988,210	518,167	349,936
Employee Contributions	898,673	591,599	469,765

Note 6 – Retirement Plans (continued)

Component Units:

Employee and employer contributions to the Utah Retirement Defined Contribution Savings Plans for fiscal year ended December 31, 2024, were as follows:

	2024	2023	2022
401(K) Plan			_
Employer Contributions	306,790	322,570	296,959
Employee Contributions	325,009	479,447	301,764
457 Plan			
Employer Contributions	-	-	-
Employee Contributions	48,922	160,594	86,804
Roth IRA Plan			
Employer Contributions	N/A	N/A	N/A
Employee Contributions	116,651	109,529	95,841

Note 7 – Public Entity Risk Pool

The County is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions and natural disasters. The County is insured through the Utah Local Governments Trust (ULGT), to manage its risk of loss. The County pays an annual premium to ULGT for its general insurance coverage. In addition, the County has purchased commercial insurance related to airport operations, steam boiler usage, employee performance, and workers' compensation.

As of December 31, 2024, there were no outstanding unpaid claims in excess of insurance coverage. Also, the County had no claim settlements over the past three years that exceeded its insurance coverage.

Note 8 – Commitments & Contingencies

The County collects sales tax under the Restaurant Tax, RAPZ Tax, and CCCOG programs enabled by state legislation and awards funds to various governmental and nonprofit entities. Awards become payable by the County when the conditions of the awards are met. At December 31, 2024, there were \$1,559,159 in Restaurant Tax funds, \$2,295,493 in RAPZ Tax funds, and \$14,039,924 in CCCOG funds that had been awarded, but were not payable because applicable conditions had not been met.

Note 9 – Tax Incremental Rebates

The County periodically enters into property tax abatement (rebate incentive) agreements with local businesses under State Statute Title 17C of the Utah Code. Under the Statute, localities may grant property tax abatements for the purpose of attracting or retaining businesses within their jurisdictions. In these agreements, the developer or business agrees to improve property within one of the County's redevelopment project areas resulting in increased property tax revenue received by the County (increment). The County periodically agrees to pay a specified amount of the increment back to the developer.

For the year ended December 31, 2024, the County abated property taxes totaling \$199,885 under this program.

Note 10 – Industrial Revenue Bonds

In 2006, the County issued industrial revenue bonds on behalf of Sunshine Terrace Foundation, Inc. in the amount of \$5,000,000, maturing in 2026. Also in 2006, the County issued \$3,000,000 of industrial revenue bonds on behalf of Lower Foods, Inc. scheduled to mature in 2026. Each of these entities is responsible for all bond payments and neither the County nor its resources are liable for repayment.

Note 11 – Related Party Transactions

Governmental Activities:

In addition to the transactions previously described in these notes, the County entered into the following significant transactions with component units.

Airport Authority – The County provided operating funds of \$100,000 based on the budget adopted by the Airport Authority and the agreement with Logan City. In addition, the Airport Authority contributed \$359,400 to the County's Airport Capital Projects fund for future capital projects.

BRHD – The County assessed and collected property taxes in its Health fund and transferred the appropriated amount of property taxes to BRHD to provide operating funds totaling \$1,174,360. The County also contributed \$393,561 to the department for the substance abuse program and for the air pollution contract.

Note 11 – Related Party Transactions (continued)

Component Units:

Airport Authority – Logan City provided operating funds of \$100,000 based on the budget adopted by the Airport Authority and the agreement with Cache County.

Note 12 – Change to or within the Financial Reporting Entity

The Tax Administration Fund, Municipal Services Fund, and Capital Projects Fund were previously reported as major funds of the County. These funds no longer meet the quantitative threshold requirements for presentation as a major fund of the County and are now being reported as part of the County's aggregate nonmajor governmental funds. The effects of that change to or within the financial reporting entity are as follows:

		Tax Administration Fund	Municipal Services Fund	Capital Projects Fund	Nonmajor Funds	
December 31, 2023, as previously reported	\$	6,149,976	9,596,840	350,050	11,931,305	
Change from major to nonmajor fund		(6,149,976)	(9,596,840)	(350,050)	16,096,866	
December 31, 2023, as restated	\$		<u> </u>		28,028,171

^{*} Contributions in Tier 2, created July 1, 2011, include an amortization rate to help fund the unfunded liabilities in the Tier 1 systems.

CACHE COUNTY, UTAH NOTES TO REQUIRED SUPPLEMENTARY INFORMATION December 31, 2024

Note 1 – Budgets and Budgetary Accounting

The County is required by state statute and the Uniform Fiscal Procedures Act for Utah Counties to adopt annual budgets for its governmental funds on or before December 15, for the succeeding fiscal year beginning January 1. This budget is shown as the original budget on the budgetary comparison schedules. Final budgets include the original budget amounts plus any amendments made to the budget during the year by the County Council through formal resolution.

The budgets for the County's funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). All annual appropriations lapse at year end. Project-length financial plans have been adopted for the Capital Projects Fund.

The County complies with the following procedures in establishing the budgetary data reflected in the financial statements:

- On or before November 1, the County Executive prepares a tentative budget for the next budget year, with the assistance of the County Finance Director.
- A public hearing is then held on the adoption of the budget.
- After the public hearing the County Council makes final adjustments to the tentative budget.
- On or before December 15, the County Council adopts the budget by resolution.
- Department heads may transfer unexpended budgeted amounts within their departments with approval of the County Council.
- The County Council may transfer unexpended budgeted amounts from one department to another in the same fund by resolution.
- Budget appropriations may be increased only after a public hearing has been held and followed by resolution of the County Council.

Note 2 – Budgeted Fund Balance

Each fund had a balanced budget in accordance with state law. As allowed by state law, the County Council has authorized the use of unassigned fund balances to provide the necessary resources to balance each fund's budget.

Note 3 – Encumbrances

The County uses encumbrances during the year to recognize the use of appropriations. The County's policy is for all appropriations to lapse at year end. Therefore, there are no encumbrances at year end.

CACHE COUNTY, UTAH NOTES TO REQUIRED SUPPLEMENTARY INFORMATION December 31, 2024

Note 4 – Change in Assumptions

Changes include updates to the mortality improvement assumption, salary increase assumption, disability incidence assumption, assumed retirement rates, and assumed termination rates, as recommended with the January 1, 2023 actuarial experience study.

CACHE COUNTY, UTAH NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS December 31, 2024

Note 1 – Purpose of the Schedule

The Schedule of Expenditures of Federal Awards (the Schedule) is a supplementary schedule to the basic financial statements designed to provide expenditure information for each federal program in which the County participated. The schedule is required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Note 2 – Significant Accounting Policies

Basis of Accounting

The information in the Schedule is presented in accordance with Title 2 U.S. *Code of Federal Regulations* Part 200. The Schedule is prepared using the same accounting policies and basis of accounting as the basic financial statements.

Assistance Listing Numbers

Title 2 U.S. *Code of Federal Regulations* Part 200 required the schedule to show the total expenditures for each of the County's federal financial assistance programs as identified by Assistance Listing number. The Assistance Listing is a government-wide compendium of individual federal programs which assigns a five-digit program identification Assistance Listing number to each federal program.

Major Programs

Uniform Guidance establishes the levels of expenditures or expenses and other criteria to be used in defining major programs. Major programs have been noted on the Schedule of Findings and Questioned Costs in accordance with those definitions.

WIC Checks

Expenditures are recorded for WIC checks on the schedule based on information provided by the State of Utah Department of Health. The value of WIC checks is excluded from grant revenue and grant expenditures in the financial statements of Bear River Health Department.

Note 3 – Indirect Cost Rate

The Schedule includes a portion of costs associated with general activities that are allocated to federal financial assistance programs using direct labor as a basis of allocation. The County has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Cache County Council Cache County, Utah Logan, Utah

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Cache County, Utah (the County) as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 27, 2025. Our report includes a reference to other auditors who audited the financial statements of Bridgerland Community Ice Arena (a component unit of North Park Interlocal Cooperative), as described in our report on the County's financial statements. The financial statements of Bridgerland Community Ice Arena were not audited in accordance with *Governmental Auditing* Standards. This report does not include our consideration of the results of the other auditors' testing of internal control over financial reporting and compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2024-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2024-002 to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the County's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

To the Cache County Council Cache County, Utah Logan, Utah

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Cache County, Utah's (the County) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2024. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit

evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the County's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CACHE COUNTY, UTAH SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended December 31, 2024

B. Findings related to the financial statements required to be reported in accordance with *Government Auditing Standards*:

Finding 2024-001

Criteria: Internal control standards expect that management or employees, in the normal course of performing their assigned functions, will prevent or detect misstatements in account balances prior to being reported in the financial statements.

Condition: Material auditor-proposed adjustments were required to make the financial statements and associated supplementary information conform to generally accepted accounting principles.

Effect or Potential Effect: The County has a material weakness in internal controls with respect to reconciliation of account balances and manual journal entries and the accurate recording, reporting, and disclosure of transactions and balances in accordance with Generally Accepted Accounting Principles.

Cause: Reconciliations of certain account balances and manual journal entries, and a secondary review of these reconciliations and manual journal entries, are not being performed on a regular basis. As a result, preliminary trial balance amounts did not report and disclose all balances and transactions in accordance with generally accepted accounting principles.

Recommendation: County management should implement procedures to ensure all material accounts are being regularly reconciled. County management should also implement procedures to ensure manual journal entries require support and are approved prior to being recorded.

CACHE COUNTY, UTAH SCHEDULE OF FINDINGS AND QUESTIONED COSTS Year Ended December 31, 2024

Finding 2024-002

Criteria: Management of the County is responsible for establishing and maintaining each of the following components of the County's system of internal control relevant to the preparation and fair presentation of the County's financial statements: 1) the County's control environment, 2) the County's risk assessment process, 3) the County's process to monitor the system of internal control, 4) the County's information system and communication, and 5) the County's control activities. A well-organized system of internal control includes the existence of individuals with adequate experience and expertise to identify issues that may result in misstatements of the County's financial statements prior to their issuance in addition to allowing for adequate segregation of duties with respect to custody, recordkeeping, and reconciliation of County assets.

Condition and Context: Although the County has implemented various policies and procedures regarding financial reporting and segregation of duties, significant turnover at the management level of the County resulted in lapses in controls over financial reporting throughout the year under audit. These lapses included the lack of timely monitoring and secondary review of reconciliations and procurement transactions by individuals with adequate experience and expertise, and the lack of identification of new accounting standards applicable to the County resulting in adjustment to the County's financial statements.

Cause: The County's system of internal control and policies and procedures associated with financial reporting and segregation of duties do not include provisions that address the potential for significant turnover at the management level.

Effect or Potential Effect: Without an adequately designed system of internal control over financial reporting, the risk increases significantly that errors and fraud, including misappropriation of assets, could occur.

Recommendation: County management should ensure that the County's system of internal control and associated policies and procedures are reviewed and updated to ensure adequate financial reporting and segregation of duties, even during times of significant turnover. In addition, we recommend that County management provide training related to financial reporting and segregation of duties to all County personnel associated with financial reporting.

<u>CACHE COUNTY, UTAH</u> <u>SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS</u>

(Client Submitted Document) Year Ended December 31, 2024

Finding 2023-001

Status: County management continues to evaluate how to improve its system of internal control.

Finding 2023-002

Status: Corrective action has been taken.

Finding 2023-002

Status: Corrective action has been taken.

Response and corrective action plan for 2024 External Audit Findings

To Whom It May Concern:

We believe that the following corrective procedures will address the audit findings and correct the weaknesses found within the internal control system. Prepared below is the response by management to the specific findings.

Finding 2024-001

Effective January, 2025, the County split the office of Clerk/Auditor into two positions. A certified public accountant was elected as Auditor. The County Auditor has planned additional training for the finance staff to address the stated weaknesses in internal controls. These additional trainings are scheduled to occur in the last half of 2025, which will permit the newly-trained staff to make all necessary adjusting entries to the financial statements during the annual year-end closing of the books.

Finding 2024-002

The County experienced significant turnover within the finance division. These changes had a significant impact on the county's ability to provide financial services. The County also had a lack of management with specific training and experience in governmental financial operations. The existing staff provided the best possible service and made all efforts to protect the assets of the County. The County Auditor has implemented a program of internal controls that timely monitor and review reconciliations and procurement procedures.

Management feels that this corrective action plan will help improve the control environment and provide improvements within the County financial operations.

Respectfully,

Matthew Funk, CPA County Auditor Cache County State Compliance Report

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE STATE COMPLIANCE AUDIT GUIDE

To the Cache County Council Cache County, Utah Logan, Utah

Report on Compliance

We have audited Cache County, Utah's (the County) compliance with the following applicable state compliance requirements described in the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor, for the year ended December 31, 2024:

Budgetary Compliance
Fund Balance
Restricted Taxes and Other Related Restricted Revenue
Fraud Risk Assessment
Government Fees
Tax Levy Revenue Recognition

Opinion on Compliance

In our opinion, Cache County, Utah complied, in all material respects, with the state compliance requirements referred to above for the year ended December 31, 2024.

Basis for Opinion on Compliance

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards); and the State Compliance Audit Guide (the Guide), issued by the Office of the Utah State Auditor. Our responsibilities under those standards and the State Compliance Audit Guide are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our

audit does not provide a legal determination of the County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's government programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of the government program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Guide, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with state compliance requirement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a state compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *State Compliance Audit Guide*. Accordingly, this report is not suitable for any other purpose.
